CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The university designs the curriculum as per UGC guidelines and considering the needs of the time. Respective boards of the studies and an academic council play significant role in framing the syllabi. While framing the syllabi, the suggestions and instructions are invited from the experts and concerned teachers of the subjects. It's mandatory for the affiliated colleges to implement rigorously the curriculum designed by the university. Following the instructions of the university, the college systematically plans the things for implementation of curriculum delivery and documentation. As soon as, the university intimates regarding entire or partial changes in curriculum; Academic Excellence Committee and Library department take the serious note of the change. The changes in syllabi are brought to the notice of the students through the college prospectus and through the introductory lectures. The textbooks and references are availed in the library in time. The university organizes workshops on revised syllabi, concerned teachers are sent to attend the workshops. It immensely helps teachers to update themselves through these workshops. At the beginning of the academic year, the students are informed the syllabi, its weightage, reference books, nature and pattern of question paper etc. During the stipulated academic span of time, the curriculum is satisfactorily delivered to the students. Continuous Internal evaluation helps to get the feedback of students. Academic excellence committee observes the effective delivery and implementation of the prescribed curriculum.

2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The college has established Examination committee comprising of teaching and nonteaching staff. The committee looks after the conduct of university and internal exams in healthy atmosphere. At the beginning of the academic year, the schedule for Internal examination is planned in the Academic calendar. Following the internal exam schedule, unit tests and periodical exams are conducted. The students are intimated the exam time table and the part of curriculum to be prepared for the said examination. Following the university exam nature and pattern of question paper, the question papers are set by the concerned subject teachers. The exam time table is displayed on the notice board, before that it is read out and intimated to all the concerned classes. With due seriousness the exams are conducted. The results are prepared and informed to the students. Analysing the results, the weak performers are individually encouraged for their study, their difficulties and queries are taken into consideration and they are given guidance accordingly. The concerned mentors are intimated the performance of students. Individual guidance and deliberate attention is given to such students. The record of CIE is maintained by the examination department.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

At the beginning of every academic year, preparation of academic calendar is regular practice. It tentatively helps us to make plan of the academic, sports, celebration of various days, planning for conduct of the university and internal examinations, organising annual cultural programme, planning for N.S.S.camp etc. activities. Academic calendar committee is formed to prepare the calendar. The committee receives instructions and suggestions from different departments and other concerned committees regarding scheduling their activities and programmes and accordingly those activities are incorporated in the academic calendar. The rough draft of calendar is brought to the notice of teaching and nonteaching faculties. And if there are no queries, with the

permission of the head of the institution the academic calendar is finalized. The college administrative wing and teaching staff mostly organize their activities and related programmes following the academic calendar.

2.6 – Student Performance and Learning Outcomes

Strategy Type	Details
Examination and Evaluation	As per affiliating university schedule, the examinations are conducted in healthy and assuring manner. The college has punctuate SRPD system to receive university question papers and for giving required feedback to the university. The assessment of part one class is conducted at college itself and for the assessment of other classes, the answer books are sent to CAP centres arranged by the university. The results are declared by the university in time. Along with university exams, the college regularly conducts the internal evaluation programme viz. Unit tests, terminal exams, projects etc. The results of internal examinations are brought to the notice of the students and considering their performance,

	individual guidance, remedial coaching etc is conducted.
Research and Development	Despite many infrastructural challenges, the college has very sound research culture. Out of nine permanently filled faculties six are holding Ph.D. degree, and one is almost in the concluding phase of research work. The three of the faculties are university recognized research guides. The students are encouraged to undertake the project works in their respective subjects. At B.A.II the project course work in environment science is compulsory. At B.A.III level the project course is in the special subjects is compulsory. The students doing research under the guidance of the faculties regularly visit the college. It enriches the research culture at the college.
Industry Interaction / Collaboration	The students and teachers of Economics department organize study visits to the small scale industrial units located in the vicinity of the college. It helps our students to know the functioning of the projects and their financial management. It gives our students the practical knowledge of the certain theoretical parts prescribed in their syllabi. Moreover it motivates students to think of career in small scale units in industrial as well agricultural sector.
Human Resource Management	The college has good number of qualified staff having their Ph.D. degree. Three of them are university recognized Research guides in their area of their specialization. They offer guidance to research students registered with affiliating university. The college encourages faculties to share their expertise at workshops/seminars /conferences organized at different levels. The teachers contribute to Internal as well as university exam assessment work. The physical director of the college guides our students as well as offers coaching to the university sports teams.
Curriculum Development	It is mandatory for the colleges to implement the syllabi prescribed by the affiliating university. Hence the framing curriculum is the privilege of the university. The board of studies in respective subjects, considering the

	<pre>suggestions and recommendations of the subject teachers frame the curriculum. The college sincerely implements the same. The changes in syllabi are brought to the notice of the students at the beginning of the academic year. During stipulated schedule the concerned teachers, using various teaching method, implement it in the classes.</pre>

pay their entire admission fees and exam fees in one instalment. While enrolling them, offering them fee concession and instalment facility is regular practice of the college. Despite these adversities, our students are performing remarkably in their exams, cultural activities, and other areas. Its matter of pride for us that, in sports our students are performing with flying colours.

8. Future Plans of Actions for Next Academic Year

Following the NAAC guidelines, the institution is planning for going through the second cycle of accreditation. As the college is located in hilly, forest and financially weaker zone, taking into consideration the expectations of accreditation criteria, employing utmost academic and financial strength, the college is trying to justify the goal and mission of the institution. The college has not any financial back up like industry etc. Hence it is necessary for us generate funds from different sources like UGC, NGOs, etc. As ICT culture for effective teaching, learning is the need of the time, the college is looking forward for augmentation of ICT equipments. We are planning for digitization of classroom. Moreover we are planning for renovation of physical facilities like ladies 'room, toilet blocks etc. For effective delivery and implementation of curriculum, the faculty of the college will be encouraged to attend orientation, refresher and short term courses. They will also be encouraged to be active in research and use of ICT in the teaching. By organising certain sessions, the administrative staff will be encouraged to be competent in their assignments given in the areas like admission process, financial audit, their role in conduct of examinations, etc. Through N.S.S. the society oriented extension programmes are planned to undertake. The library and reading room updating is also planned. The sports department will be more encouraged to make students participation in various sports events at various levels. Through cultural department various programmes encouraging gender equality, etc will be encouraged. The mentor scheme will look after to find out the remedies for students' problems and challenges they face. The conduct of university and internal examination in healthy and assuring atmosphere will be conducted.
